

Blessing Society of Healing Arts Member Services Agreement

Blessing Society of Healing Arts DBA Tucson Biofeedback operates as a non-profit Faith Based Organization. We are a Healing Ministry created to fill in the gap left by traditional medical care. Below you will read our Mission, Vision and Statement of Faith.

Our service to life through our ministry and services is geared towards advancing humanity beyond discord and suffering on all levels: physical, mental, emotional and spiritual, into greater Harmony of Health, Inner and Outer Peace, which we believe we were all originally designed to experience by our loving Creator when we live in accord with the Divine Principles of the Universal Laws of Life.

Our commitment is and always will be to bring forth the purest, most effective, practical and natural everyday solutions to Health, Youth, and Vital Longevity, as well as for the expansion of one's own and collective consciousness of mankind.

It is our own inner and personal religious belief that it is not a product, service or external thing that does the healing, but the Power of our own body's Innate Intelligence (which beats your heart) that does all the healing and adjusting of your body, mind, emotions, being and world once you give it what it needs and omit what it doesn't and then continue to live in accord with the Divine Laws of Life's Perfection and Harmony.

The Power that made the Body, Heals the Body.

Our mission is to support Healing by way of Wholeness, which is only possible through acknowledging the intimate and intertwining of mind-body-spirit. To live and empower our members to live in Harmony with the Cosmic Laws of Divine Harmony. Our organization operates and honors the Cosmic Laws above all.

All of our products, services information and protocols are a part of our own Pastoral Medicine and Ministerial Practice and is protected under the 1st Amendment of the Constitution of the United States and Religious Freedom Restoration Act. By using any of the info we offer you are agreeing to do not take it as a health advise, remedy or health suggestion, but to take solely your own responsibility of their use. We are not a medical practice and do not bill or work through insurance companies.

May every man, woman and child reclaim their Divine Birthright of Healing and Wholeness through the process of re-harmonization of the body, mind and spirit with advanced tools and technology we personally utilize such as: Neurofeedback, Biofeedback, Frequency Specific Microcurrent, Mind-Body Practices and Custom Wellness Suggestions.
